Opening Doors to Education

THE UNIVERSITY

When this institution opened its classroom doors in 1947, the concept of a quality education for minorities, particularly African-Americans, was not widespread. Undaunted by philosophical opposition, the innovative forefathers of Texas Southern University boldly affirmed their belief in "Excellence in Achievement" and thus opened the door to the future for generations of Texas Southern University graduates. For more than a half-century, the university has pursued the goals of quality education, vigorous service, and rigorous research, thereby achieving a position of national prominence. Enrollment has grown increasingly over the years. Today, the university has a diverse student population of more than 10,000 students from most states and 68 foreign countries. These students are pursuing undergraduate and graduate degrees in seven schools and colleges, which offer comprehensive curricula.

COST ESTIMATES

The budget amounts listed below are typical average costs for undergraduate foreign students, based on 2003-2004* academic year. The cost of education budget reflects modest, but reasonable, educational and other related expenses. In future years, costs are expected to increase slightly:

Tuition and Fees**	\$ 8,844.00
Books	\$ 1,000.00
Room and Board	\$ 8,000.00
Transportation	\$ 2,000.00
Miscellaneous	\$ 2,156.00
TOTAL **	\$ 22,000.00

* 4% average annual increase

**Based on 24 semester hours per year for undergraduates

To avoid suffering unnecessary hardship or anxiety, students must carefully consider the financial implications of studying at Texas Southern University. A minimum of \$500 in U.S. currency is needed to pay for transportation, meals, temporary accommodations (if necessary), and sundry items. Students are encouraged to bring at least \$6,000 in U.S. traveler's checks to meet immediate educational and living expenses. Foreign drafts may take several weeks to cash, and regular bank checks may take even longer to cash. If a government requires payment of educational expenses with a check payable to Texas Southern University on a foreign bank, students must make certain that the check arrives at the university eight weeks prior to arrival. Mail cashier's check along with name, address, and semester to the university.

IMMIGRATION AND VISA INFORMATION

International students from abroad are welcome to enter the United States and to remain during their studies. Students are expected to maintain their full-time student status at the university and be in good status with the United States Department of Immigration and Naturalization Service (INS). Students are expected to leave the U.S. once their studies have been completed.

All students entering the U.S. from abroad will need a visa. Foreign citizens who are visiting the United States and want to study at an American college now will have to wait to begin their course work until they obtain a student visa. Upon arrival in the United States, students will be given additional immigration information at the port of entry and from the foreign students' advisor.

STUDENTS TRANSFERRING INSIDE THE U.S.

If a student has an F-1 visa and is transferring from another U.S. college or university, the foreign student advisor at Texas Southern University is required to assist the student with the procedures for completing the notification of transfer to the INS. The university needs the following documents:

- Passport
- I-20 Form
- I-94 arrival/departure Record
- Foreign Student Advisor's Transfer Report Form completed at the college from which student is transferring

Students who leave the U.S. before beginning classes at TSU must use the university-issued I-20 to re-enter the country and to be authorized to attend Texas Southern University.

International Student Certification of Finances Guidelines

Please read prior to completing this form.

The purpose of the *Certification of Finances* is to help colleges and universities obtain complete and accurate information about the funds available to international applicants who want to study in the United States. Strict government regulations, rising educational costs, and economic conditions have made verification of financial resources of international applicants essential. Institutions do not have the option of deciding whether or not to verify the financial resources of their international applicants; financial verification must be made prior to institutional issuance of Certificates of Eligibility (Form I-20).

This form is designed to standardize financial information provided by applicants to colleges, universities, and United States consuls. By completing and returning this form to the college/university requiring it, an applicant, if admitted, may obtain that college's authorization and issuance of a Certificate of Eligibility (Form I-20).

The institution should attach a copy of this Certification to the Certificate of Eligibility. United States consuls scrutinize the statements of financial resources given by nonimmigrant visa applicants. This Certification will help such officials make their decisions and expedite visa issuance.
